

Hello,

My name is Allan Bridges and I am a brand new, first-time school governor and I'm very excited to get involved. I have a son who attends Shalfleet and I want to build upon the excellent work that is already being done across the Federation and help to support his, and everyone's education, by volunteering as a Parent Governor.

I really enjoyed my time at school and only now, as an adult, am I able to see the amount of hard work that goes on to ensure every child has a positive experience.

I was born on the Island and returned for high school and I've been back again for around 12 years. My background is Sales, Marketing and Business Development and I hope to utilise that experience to help progress the Federation.

I still play regular team sports throughout the year and I am heavily involved in the Island's community as Business Development Manager for Ryde Town Council. I truly hope that I can be of assistance to the fantastic team already in place and help create further opportunities for the Federation.
