Did you know
that we can save
you money?

Do you know that we can save you money? How you may ask? If your child is in year R, 1 or 2 and has a packed lunch every day, we can save you the cost of this. With prices rising everywhere, why not save money where you can? Children in years R, 1 or 2 can enjoy a free school meal every day as part of the government incentive to get more children eating a hot meal at lunchtimes.

We have worked out that an average packed lunch may cost in the region of £1 per day per child, so.....

£1 per day per child over the 39 school weeks equals **£195** per school year. Please remember that this calculation is based on an average cost and only based on one child, you could be saving even more by taking advantage of the free meal on offer.

You are able to select one day a week, two days a week or mix and match between sandwiches and dinners, the choice is yours!

Please speak to the school office if your child has specific catering requirements or if you would like further information.

Ummm, spend £195
per year, per child on
packed lunch OR...

Save £195 per year,
per child by taking
advantage of the free
school meal on offer
