# Photographic Images of Children Guidelines

## 1. Introduction

This policy is written with the sole purpose of safeguarding children and staff; it gives guidance on the appropriate use of images of children in education. It covers, video and electronic photographic images wherever they are used.

## 2. Typical Uses of Photographs

- Key skills for PE
- Video Based Learning Projects
- Performing arts including dance and movement, concerts, drama performances, parent evenings
- Sports days and sports fixtures
- Media including newspapers and television especially when some editors require children's names when publishing photographs
- Displays in the establishment of children's activities
- Publications by the establishment and by IWCC
- Establishment and IWCC web-sites
- Staff training and professional development activities
- Site security

## 3. Governing Body

The Governing Body formally adopts these guidelines as policy and good practice.

The child protection and /or health and safety governors are aware of and support the policies and procedures.

## 4. Ownership

Human Rights legislation and the Data Protection Act 2018 give people new rights and it is the right to 'privacy' that is the issue when using photographs. The Federation must take steps to respect the rights of people in photographs.

The Copyright, Designs and Patent Acts 1988 moved the ownership of copyright to the photographer (or their employer) and away from the person commissioning and paying for the photographs, unless there is an agreement otherwise.

## 5. Teacher Use of Photographs

- Teachers including those in training, often take photographs as evidence of children achievements.
- Staff should act responsibly in compiling these images. A member of the management team may wish to oversee the compiled images as part of the management process and consider their appropriateness.
- All staff must use school cameras, i-pads or video recorders to record school events. School memory cards or memory sticks must be used [not personal ones] to store images prior to download.
- All staff must download images to school computers. Memory Cards and memory sticks must then have images deleted.
- At no time must memory cards/sticks be taken off the school premises unless installed in camera/ ipad or video recorder for a specific purpose.
- All school computers are password protected

## 6. Good Practice

The following advice represents good practice in the use of photographic images involving children.

1. When taking a picture, the Federation must obtain the consent of the person in the picture or from their parent or carer.
2. If using a photo from the media or commissioning a photograph, have a signed agreement

3. Use the image in its intended context. Examples of this not happening are:
  - When a picture taken by a national newspaper of a child accepting an award was used by the National Front in a story with a completely different story angle.
  - When a photo of the public boarding a bus to launch a rural transport initiative is used to illustrate a story attacking rural transport shortages.
4. Follow the commitment made in the consent forms:
  - not to use the photograph out of context;
  - not to use the photograph to illustrate sensitive or negative issues.
5. When photographing children:
  - a. Ensure that parents and carers of young people have signed and returned the Federation's consent form for general photography
  - b. Ensure all children are appropriately dressed.
  - c. Avoid images that only show a single child with no surrounding context of what they are learning or doing.
  - d. Photographs of three or four children are more likely to also include their learning context.
  - e. Do not use images of a child who is considered very vulnerable, unless parents / carers have given specific written permission.
  - f. Avoid naming young people. If one name is required, then use the first name only where possible.
  - g. Use photographs that represent the diversity of the young people participating.
  - h. Report any concerns relating to any inappropriate or intrusive photography to the head teacher
  - i. Remember the duty of care and challenge any inappropriate behaviour or language.
  - j. Do not use images that are likely to cause distress, upset or embarrassment.
6. Regularly review stored images and delete unwanted material.

## **7. Parental Permission**

Use of images of children require the consent of the parent / carer. Permission should always be obtained by using the appropriate form, when a child joins the establishment. The form covers the school and using the photographs in publications and on web-sites. Each year as part of a standard communication, ask parents if they wish to change their permission. If they do, encourage them to contact the head teacher.

When a parent does not agree to their child being photographed, the head teacher must inform staff and make every effort to comply sensitively.

For example, if a child whose parents have refused permission for photography is involved with a sports event, e.g. a football match, it may not be appropriate to photograph the whole team. Careful liaison with parents is therefore essential. With discussion it may be possible to agree other options. The parent may accept a team photograph if names are not published or they may be prepared to relent if it affects the whole team.

When photographic images are transmitted or shared beyond the establishment e.g. television broadcasts, images on intranet sites, specific permission should be obtained

## **8. Photographing your Child at School**

To allow the appropriate recording of children's images, parents, carers and visitors are requested not to use cameras to photograph or film children on the school premises, without the express permission of the Head teacher this includes mobile phone cameras, video cameras or any other device with recording capabilities.

The school will take still and video images of events which will be shared with the relevant parents, if agreed permission is received from all parents.

The school will provide the opportunity for parents to photograph their own children at school events and presentations. This will be closely supervised to ensure that parents only take photographs of their individual children.

### **9. Children Photographing Each Other**

This practice can occur extensively during offsite activities particularly during residential periods. Staff should maintain the supervision and management control. There may be incidents where children take inappropriate photographs, perhaps showing friends and other children inappropriately dressed. Staff should endeavour to discourage this practice, inform the child's parents and carry out an investigation. During residential trips mobile phones and cameras are not allowed. An emergency contact number is provided to the parents. Photographs taken on school equipment will be made available to parents on return.

### **10. Newspapers**

Several scenarios can occur:

#### 1. Team photographs:

- When everyone is prepared to allow team photographs and full names to be published. In this situation publication can occur.
- If a parent is not happy to have a child's name printed on a photograph, then consideration could be given to publishing the photograph with no names. The head teacher / manager should make every effort to ensure, in conjunction with the newspaper editors, that this occurs.
- If parents of a child have indicated that the child is vulnerable and should not have a photograph printed, then a team photograph may not be appropriate.

#### 2. Photo opportunities:

- When an establishment invites a newspaper or other media publisher to celebrate an event, the head teacher should make every effort IN ADVANCE to ensure that the publisher's requirements can be met.
- Almost without exception, this means they will prefer to publish the full names of anyone in a photograph they print. The only exception to this might be (as above) in a larger group shot (e.g.: a group of more than 10 children).
- However, they usually prefer to work with smaller groups of children – e.g.: three or four – and for this number names would definitely be required.
- It is not acceptable to invite a newspaper or other media publisher to take photographs and then refuse to provide any names. Newspapers will not print anonymous photographs. Establishments must give thought to this beforehand – and parental permission / opinion must be their key guidance.
- This might mean offering only those children whose parents are happy for publication of photographs and names for inclusion in any photo opportunities.
- If this is not possible – for instance because a specific group of children have achieved something, and parental permission re. the publication of full names is withheld for one or more of the group - it might be possible to negotiate a 'first names only' agreement with the publisher.
- Otherwise establishments must be prepared to forego the publicity.

*This policy should be read in conjunction with the school's Child Protection Policy*
