

# Outdoor Learning 27<sup>th</sup> March 2023

## Easter Fun

*It's been a busy term so what better way to end it than with some creativity. While some of us got crafty, others adapted and expanded an obstacle course.*

*Take a look at some of our wonderful ideas for making. We did nearly all the work ourselves and helped each other out with the tricky things like cutting fabric and tying knots. Don't you think we are amazing?*

*We tried out some new ideas with the obstacle course and even tried incorporating a marble run. What a fantastic way to work together to test out our ideas, figure out how to fix things that go wrong and play together with what we made!*

**Happy Easter!**
