Monster Mash

If you take a look around our garden, you might spot some mysterious mud

monsters lurking in shady nooks. We found lots of bits and bobs to make them marvellous, like sticks, stones, flowers, leaves and feathers. Look at our concentration!

You can take a look at them here:

While some of us were busy modelling mud, the rest of us found lots to do.

Digging is always popular – who knows what treasure we will find? It's a great opportunity to talk with our friends about what we're doing, how we're doing it and what we hope to achieve. Sometimes we have different ideas, but because we are so keen to dig, we find a way to make them work together. What's your favourite thing to do with your friends?

All that digging makes for hungry folk, so our imaginative chefs in the mud kitchen got busy cooking up cakes, meatballs, kebabs and soup. Yum! What a great place to let our imaginations run free and work with our friends to serve up delicious treats.

Music has been a bit of a feature this week – you can turn almost anything into a drum and get with the beat. We know how to damp the vibration to turn down the volume, too!

Teamwork makes the dream work when it comes to building and we use all our different skills together to design, create, improve and (sadly) pack away.

Our imaginations take us all sorts of places – can you guess what we are doing here?
