

# Outdoor Learning Autumn 6 2023

## Bonkers for Conkers

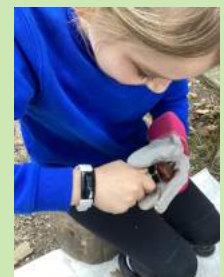

What can you do with a conker or two? Well...

...how about a spider, a caterpillar or a bug from your imagination?

We are learning to use tools safely and effectively. For our conkers, we used a palm drill. A leather glove on the hand holding the conker ensures we protect ourselves from slips. Threading the string through can be tricky, but our friends are always there ready to help.

And when we weren't busy doing that, we were busy doing this!

There is no end to the ways we use our outdoor areas to develop our resilience, respect and relationships.
