

Governor Profile - Dale Sloan

I am delighted to become the latest (September 2023) Parent Governor for The Federation of Church Schools of Shalfleet and Freshwater & Yarmouth. I am keen to participate with the representing Governors who show vast knowledge and commitment to such cause.

I have a child who attends Freshwater & Yarmouth CE Primary School who is currently at Key Stage One in their educational journey and who has moved up through the school's Early Years Foundation Stages.

I would like to contribute going forwards to every child's development by sharing niceties that might prove useful from my own credentials, being challenged by the unknown, creating ideas and aiming towards positive outcomes for the Federation and all who are implicated by the processes.

My working background has a combined 20+ years' experience of managing out of school provision, providing inclusive environments for Children and Young People to learn through play opportunities. My job roles since 2015 have been based in West Wight, involving communities to reduce loneliness & social isolation, and by aiding residents, connecting, or reconnecting them to statutory services for practical and emotional support.
