

# Outdoor Learning Autumn 10 2023

## It's beginning to look a lot like Christmas!

It's that time of year again where we are getting ready to celebrate and get things in the ground before it gets too frosty. We used natural materials to make some Christmas decorations.

We were busy with our rakes and spades too. We made a huge leaf pile at Shalfleet and planted our new hedge at Freshwater and Yarmouth. We're excited to watch it grow with us.

As usual, we found all sorts of things that captured our imaginations . What are these folk up to?
